Lincoln, NE | www.linkedin.com/in/yohanneshailu | yhailu006@gmail.com | 402-905-5385

EDUCATION

University of Nebraska-Lincoln

Lincoln, Nebraska

Bachelor of Science in Honors Computer Science

May 2028

Bachelor of Science in Honors Math

3.95/4

Bachelor of Science in Honors Data Science

Relevant Coursework: Data Structure and Algorithms, Software Engineering, Data Analysis, Computer Systems

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C#, C++ (In progress)

Applications/Frameworks: React, Next.js, MUI, Microsoft Suite, Agile Methodology, DynamoDB, VSCode

EXPERIENCE

Lockheed Martin

Omaha, Nebraska

Incoming Software Engineering Intern

Summer or Fall

2026

- Obtaining a TS clearance, working on various projects

Aviture

Omaha, Nebraska

Software Engineering Intern

May 2025 - August 2025

- Developed a recruitment app for the United States Air Force to source potential Line Officers. Over 1 Million total downloads on Google and Apple app store
- Optimized data retrieval processes by creating new queries in DynamoDB resulting in a 400x faster process
- Developed new website components and resolved various bugs, using ReactJS, JavaScript/Typescript and AWS Lambda

University of Nebraska - Lincoln

Lincoln, Nebraska

Technology Support Intern

April 2025 - Present

- Performed maintenance on IT systems and troubleshoot software, operating systems, computer hardware, and network connections
- Migrated school email domains and resolved software access issues for 3 different business departments

Headstarter AI

Virtual

Software Engineering Fellow

July 2024 - September 2024

- Developed three web-based applications, enhancing both front-end and back-end skills using NextJS, Firebase, and MUI solving different complex problems.
- Integrated LLM APIs to allow the webapps to parse data from the website returning responses from the LLM'S, overcoming challenges in functionality and troubleshooting

TECHNICAL PROJECTS

Vex U Robotics

Lincoln, Nebraska

Programmer

August 2024 - May 2025

- Improved latency and synchronization by 15% using C++ algorithms and using the VEX V5 API, optimizing RC movements.
- Created comprehensive daily reports to document technical processes, ensuring smooth knowledge transfer and effective troubleshooting throughout the project lifecycle

NASA Suits

Lincoln, Nebraska

Programmer

August 2024 - May 2025

- Developed augmented reality interfaces to present telemetry data in simulated space environments, directly enhancing user comprehension and decision-making during critical mission scenarios
- Iterated on interface designs multiple times through user testing and feedback to ensure optimal performance in extreme, high-stakes environments like space missions

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

National Society of Black Engineers

Lincoln, Nebraska

Senator

August 2025 - Present

- Represented 50+ member interests in NSBE chapter meetings and contributed to decisions on chapter initiatives, events, and policies.

Management Leadership for Tomorrow

Virtual

Career Preparation Fellow

January 2025 - Present

- Accepted into a selective 18-month professional development program that accelerates the career growth of emerging leaders through structured coaching, mentorship, and targeted skill-building.

Other Involvements: Honors Program, NACME, Color Stack, Afrikan Peoples Union, African Student Association
